

## Why JP STEEL?

We can promise you fast lead times with precise measurement, it's as simple as that! At JP STEEL we often have a 1-2 day turnaround, which is about 5X faster than our competitors. The fast lead times are due to the use of a combination of 3 different band saws and 2 precision cold saws allowing for extremely fast production.

*Your Steel Solutions Provider*

**Celebrating 17 years in  
the Steel Industry.**

## Services & Testing

JP STEEL is your best choice for production and distribution associated with your steel-related projects.

Our full cycle QC processes backed by the ISO 9001 Program ensure the selection of the highest quality, accurately-specified products. In parallel, JP STEEL provides efficient fulfillment by maintaining a large inventory and expedited delivery.

JP STEEL's Service Center is equipped with a fully stocked 75,000 sq. ft. warehouse on a 20 acre tract. Our highly trained and knowledgeable staff specialize in:

- Low stress steel stamping
- Standard cutting
- Laser cutting/processing
- Mitre cutting
- Heat treating
- Machining
- Custom kitting
- Boring & honing
- Cut bar

Materials are always properly marked and include accurate documentation. We provide same day and rush delivery with traceability allowing you to manage your project in real time.

## Solutions

JP STEEL offers full service consulting, project analysis and feedback as needed to assist our clients. Our spacious warehouse encloses a large inventory managed through a Customer Specific Stocking Program. This ensures we do the job right the first time, every time, from specialty products to custom cutting. We deliver this founding principle on every project for our clients, with strong focus on improving the bottom line and productivity with top quality products and services.

**The next time you need a steel solution for your project,  
make sure to contact JP STEEL.**

## Products

Procurement of quality products is critical to the success of your project. JP STEEL understands the variables that have great impact on your bottom line. We also understand the importance of offering a wide selection of products.

We take great pride and effort in partnering with our clients to meet their particular needs - turnkey or custom - to complete the job on time, every time.
